and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Being a single parent and my daughter being a single parent also we only use our wireless phone for emergencies only. I think it is unfair to people like my daughter and myself to have to have the price raised when we hardly ever use our phone. To be honest, I don't like wireless phones as I think that they cause alot of accidents. People want to drive around talking up a storm...raise their rates. People like myself and my daughter who only use it for emergency reason should not be punished and having our rates raised. If you don't believe me on how my phone is being used, call it and you will find that it is hardly ever on and that no one is talking on it.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Frances Oliveira
